

NORDIC KNOTS

FIELDS - ANTHRACITE - 140X200 CM

Fields aims to translate the mood and texture of the natural landscape in the souther tip of Skåne. It has a soft shaggy wool weave, the colours symbolises the colours of the wheat fields as they mature during the course of summer. From a crisp dusty white when first rising from the soil, to a sun soaked sand at peak summer, to finally turning into an almost grey shade by the turn of the season. The Fields collection is handmade in small batches. Only a few in each size are available.
