

NORDIC KNOTS

MONOLITH 02 - SAND/TEAL - 140X200 CM

Monolith is drawn from the silhouettes of a 1400-year-old mystical monument — 59 boulders raised on the rolling fields next to the Baltic Sea in the southern tip of Skåne. These age-old silhouettes, placed against the blue Scandinavian sky convey a sense of timelessness. The rugs have a shaggy and textured wool weave. The colors are inspired by the charcoal stones, the surrounding dusty fields and the teal blue colored ocean. The Monolith collection is handmade in small batches. Only a few in each size are available.
