

NORDIC KNOTS

FABRIZIO - ASTRONOMER - BLUE - 170X240 CM

Paris-based interior designer Fabrizio Casiraghi's collection for Nordic Knots presents a trio of rugs designed to portray the eternal bond between humanity and the natural world through our past, present, and future. Casiraghi brings this narrative to life through three main characters: The Archaeologist, the Farmer and the Astronomer. Each piece is hand-knotted at a high density from supremely soft and durable New Zealand wool, creating a remarkably smooth finish and great level of detail. The Fabrizio Casiraghi collection is handmade in small batches. Only a few in each size are available.
