

NORDIC KNOTS

ARCHIPELAGO - GRAY - 140X200 CM

An archipelago, sometimes called an island group or island chain, is a chain, cluster or collection of islands, or sometimes a sea containing a small number of scattered islands. This design is inspired by the view from above of the many islands in the Stockholm archipelago. This shaggy rug is hand knotted with New Zealand wool for great quality and a soft feel. The Archipelago collection is handmade in small batches. Only a few in each size are available.
