

NORDIC KNOTS

CLIMBING VINE - 140X200 CM

Designed by Campbell-Rey with a colorful and art deco-influenced sensibility and the floral motifs of Gustavian style, the neoclassicism of the North. Dating back to the 1780s, with motifs like the wreath and the folding ribbon, alongside ideas taken from the history of garden design, at the heart of this collection. Climbing Vine is a contemporary update to a classic motif, a line of scrolling chartreuse foliage, sharp and graphic in its outline, that winds around the edge of a calm lilac rug. The Campbell Rey collection is handmade in small batches. Only a few in each size are available.
