

NORDIC KNOTS

GARDEN MAZE - 140X200 CM

Designed by Campbell-Rey with a colorful and art deco-influenced sensibility and the floral motifs of Gustavian style, the neoclassicism of the North. Dating back to the 1780s, with motifs like the wreath and the folding ribbon, alongside ideas taken from the history of garden design, at the heart of this collection. Garden Maze is characterized by lush tones of green reminiscent of hedgerows and is an homage to the formal gardens of Russell Page. The deepening shades of green create a play on perspective and recall the geometric shadows of a hedge maze. The Campbell Rey collection is handmade in small batches. Only a few in each size are available.
