

NORDIC KNOTS

NORR MÄLARSTRAND 01 - DUSTY WHITE/BLACK

A tribute to the iconic simplicity of early modern and Swedish funkis design. These plush area rugs are inspired by bold geometric patterns and clean architectural lines. Handwoven from supremely soft and durable New Zealand wool. Featuring a refined color palette including soft neutrals and colorful accents. AML is designed by Swedish architect Andreas Martin-Löf. Drawing inspiration from his living and work space in Norr Mälarstrand, Stockholm, the rug reflects the area's architecture which lies on the border of classicism and modernism. The Modernist Collection is handmade in small batches. Only a few in each size are available.
